Black / Grey interior, This Foley Gun Bus was built 5 yrs ago by us, but hardly used as circumstances on the Estate had changed and we have bought the vehicle back ready for its next adventure.

It was converted from an Ex Military Ambulance V8 127 land rover that was purchased directly from the MOD. We converted the rear body with single rear door and windows. The rear seating were fitted and the complete vehicle was painted Keswick green. It is in fantastic condition and has been fully serviced and new MOT when sold.
